Experience

Team Member, Appdroid (Lassonde School of Engineering)

- Report documented and summarized team meetings to senior executives;
- Develop promotional advertisements for upcoming events and workshop, e.g. video and posters;
- Market to and inform 100+ potential attendees of upcoming events and workshops;
- Manage and assist with organizing and running web & mobile application development events and workshops with 20+ attendees.

Projects

My Profile Website

May 2020

A website created using **HTML/CSS**, and **Bootstrap** to display personal projects and more.

Fridgeful

February 2020

3rd place, Ellehacks 2020

Android mobile and Google Assistant application created with **Android Studio**, **Java**, and **Voiceflow**. The app tracks fridge inventory, organizes items based on expiration date, and suggests recipes based on nearest expiration dates, to induce users to reduce food waste.

Education

Bachelors' in Computer Science:
York University
2017 - January 2020
